SCIENTIFIC EVENTS

THE CARDIFF MEETING OF THE BRITISH ASSOCIATION

ACCORDING to an article in the London *Times* the arrangements for the 1920 meeting of the British Association, which opens at Cardiff on August 24, are well advanced. The inaugural meeting will be held in the Park Hall on the evening of the opening day, when Professor W. A. Herdman, ex-general secretary, will assume the presidency in succession to Sir Charles Parsons.

Professor Herdman in his presidential address will give a general survey of the subject of oceanography, dealing in detail with certain special problems and recent investigations with particular reference to sea fisheries. On Thursday evening, August 26, an address will be delivered by Sir Richard T. Glazebrook, who recently retired from the post of Director of the National Physical Laboratory. The subject has not yet been fixed. The second evening discourse is to be delivered by Sir Daniel Hall, permanent secretary of the Board of Agriculture since 1917, whose subject will be "A grain of wheat from the field to the table."

The president of the mathematical and physical science section will be Professor A. S. Eddington, who recently came prominently before the public as a leading protagonist in the discussion on the Einstein theory of relativity. Dr. F. A. Bather is to be the president of the geological section, and his address will discuss the general problems of paleontology, especially in their relation to zoology. The presidents of the other sections, the subjects of whose addresses are not yet fixed are: Zoology, Professor J. S. Gardiner; geography, Mr. J. McFarlane; economics, Dr. J. H. Clapham; engineering, Professor C. F. Jenkin; anthropology, Professor Karl Pearson; physiology, Mr. J. Barcroft; botany, Miss E. R. Saunders; education, Sir Robert Blair; and agriculture, Professor F. W. Keeble.

The citizens' lectures, which developed out of the single lecture which used to be given to the operative classes of the towns visited by the association, are now arranged in collaboration with the local branch of the Workers' Educational Association. The lecturers this year will be Professor Boulton, of Birmingham, Professor Lloyd Williams, of Aberystwyth, Professor A. W. Kirkaldy, of Nottingham, and Dr. Vaughn Cornish. The president of the Conference of Delegates of Corresponding Societies will be Mr. T. Sheppard, curator of the Municipal Museums at Hull.

THE ENGLISH DEEP-SEA FISHERIES

A SPECIAL correspondent of the London *Times* who has visited some of the chief fish-
